The Karlsruhe Institute of Technology (KIT) is offering a position at the Department of Architecture, Chair of International Urban Planning and Design as Scientific Assistant starting in March 2014 for three years with option of extension for further 3 years. The salary is according to German legislation in public service and depending upon the education degree up to the level 13 TV-L, respectively according to TVÜ-L. The position is a part-time job (75%).

On October 01, 2009, the Karlsruhe Institute of Technology (KIT) was founded by a merger of Forschungszentrum Karlsruhe and Universität Karlsruhe. KIT bundles the missions of both precursory institutions: A university of the state of Baden-Wuerttemberg with teaching and research tasks and a large-scale research institution of the Helmholtz Association conducting program-oriented provident research on behalf of the Federal Republic of Germany. Within these missions, KIT is operating along the three strategic fields of action of research, teaching, and innovation.

The Department of Architecture at the Karlsruhe Institute of Technology (KIT) has a long tradition reaching back to the foundation of Universität Karlsruhe in 1825. Ever since, many reputable teachers have been attending to students’ needs. Today, 21 professors from four newly founded institutes with 26 subject areas and fields of teaching as well as a large staff of academic assistants, assistant lecturers, and visiting professors ensure that our approximately 750 students can profit from excellent diversified teaching based on practical and modern concepts. Our department is well provided with students’ workplaces, workshops, and IT equipment.

Requirements: Msc or Diploma in architecture or urban planning. Professional experience at least two years. We are especially interested in candidates with strong research interests in urban design and related fields and a desire to contribute to urban design and city planning by advancing planning scholarship. Candidates should have the ability to teach site planning and urban/city design to masters students. Ability and interest to collaborate with various faculty members in the department and the university is an asset.

Area of responsibility:
Teaching (BA and Msc): preparing and guiding design studios and seminars and master thesis (teaching can be done in English)
Research: active contribution to the specific research focus of the chair. The opportunity to do a PhD is given.

The Karlsruhe Institute of Technology wants to rise the percentage of women in science and therefore is explicitly asking women to apply. It should be noted that applications from severely disabled people with appropriate suitability are explicitly welcome.
